FBiH	Federation of Bosnia and Herzegovina
FIS	Institute for Statistics of Federation of Bosnia and Herzegovina
MS	EU Member State
RSIS	Institute for Statistics of Republika Srpska
RTA	Resident Twinning Adviser
ToR	Terms of Reference

## 1. General comments

This mission report was prepared within the EU Twinning Project "Further Support to the Reform of the Statistics System in Bosnia and Herzegovina". It was the forth mission to be devoted to the Administrative Data Sources component of the Project.

The purposes of the mission were:

- To increase the knowledge of the BC of the use of Administrative Data Sources in statistics in Finland and Denmark via online presentations by MS experts

Four sessions with eight presentations were held during the mission. The topics were:

Transportation Statistics  
Building Statistics  
Labour Market Statistics  
Crime Statistics

After the presentations, there were room for questions and discussions. The presentations have after the meeting been forwarded to the BC component leaders.

As nothing was agreed on due to the nature of the meetings, the report is not signed by either the BC component leaders or by the MS experts.

With my signature, I confirm that the meetings have been performed:

RTA

25.10.2022

*Stjepan Modar*

## Annex 1. Terms of Reference for the mission

### Terms of Reference

**EU Twinning Project BA 17 IPA ST 01 20**

**Component 3D – Administrative Data Sources  
September 27<sup>th</sup>, 29<sup>th</sup> and 30<sup>th</sup>**

**Venue: Zoom meetings**

**Activity 3D Administrative Data Sources: MS presentations on how administrative data are used for the production of statistics in several statistical domains**

#### **1. Mandatory result**

The component 3 – Administrative Data Sources has one result: An Inventory of administrative sources for all statistical domains prepared.

The way towards the result is assumed to be:

- Current status of availability and use of administrative data
- Identify relevant sources of administrative data at different levels of government
- Develop an inventory of administrative sources
- Establish criteria for when administrative data can be used for statistical purposes ~fit for use
- Developing methods for use of administrative data
- Train staff on how to evaluate suitability and quality of administrative data
- From the inventory of administrative sources build a list of sources that in short to medium term can be used by the statistical system
- Defines protocols for regular data transfers
- Discuss security, confidentiality and privacy issues arising from the exchange of administrative data from the data owners to the actors of the national statistical system
- Identify one or two statistics that can be used as pilot
- Pilot transfer and test production

It is expected that one or two statistical areas can be identified for pilots / case study to provide a business case for the use of administrative data.

Indicator / Relevant Milestones / Internal deadlines:

- Inventory of administrative sources available

## **2. Purpose of the activity**

- To increase the knowledge of the BC of the use of Administrative Data Sources in statistics in Finland and Denmark via online presentations by MS experts

## **3. Expected output of the activity**

- Increased BC knowledge of how Administrative Data Sources are used in statistics in Finland and Denmark in several statistical domains
